How to Use This Workbook

Scope This workbook covers all 33 cocktails documented in the Thai Smile Cocktail Study Guide: the 15 signature drinks from the printed dine-in menu, 8 wall card recipes, 9 off menu builds and 1 binder only recipe. Prices are not tested anywhere in this workbook.

Order of priority Sections are weighted toward the signature menu drinks, because those are what guests actually order. Wall and off menu drinks follow. If you are short on study time, master the signature drinks first.

Sections 1 to 4 Complete these closed book, in order, in one sitting. Allow roughly 60 to 75 minutes. Write in pen. Section 5 is the answer key: do not open it until all four assessment sections are finished.

Undocumented recipes Three signature drinks (Lychee Martini, Spicy Mango and Lotus Blossom) appear on the printed menu but have no recipe card on file. Questions on these are limited to what the menu itself states. Where a field is not documented, the correct answer is to say so and ask the bar. Never guess a build in service.

Passing standard 80 percent overall, with no section below 70 percent. Any missed question on a signature menu drink should be re-drilled before certification.

A note on the three flagged builds. The study guide flags several recipes where the printed menu and the recipe card disagree, most notably My Thai Smile. This workbook only tests the parts of those recipes that all sources agree on. Nothing has been invented to fill a gap.
